**Importance:** High

Mike – We need some assistance pretty fast in getting some access for some mini-sippers going in next week – assuming weather hold out.

I could use your help in getting current contact info for the owner at monitoring station [REDACTED] – especially phone #s (see # 2. below).

Also we will need some help with getting access possibly from Sunnyside for a monitoring station above [REDACTED]. Dan Wall and I just discussed and have decided that the [REDACTED] location isn't optimal for this set of monitoring so Dan is looking on Google map and perhaps with BLM's assistance we can define the owner (our BLM contact in Silverton is very skilled in researching the records at the assessor's office) – it may be Sunnyside – they own quite a stretch of "river front" on the Animas around the Eureka town site.

I can probably track down [REDACTED] Citizen Name/Ex. 6 [REDACTED] - I've met with him and he's pretty reasonable.

Thanks.
